## 2008 AMERICAN EAGLE SILVER PROOF COIN

This is the proof version of the United States Mint's official silver bullion coin. Each coin is struck multiple times on specially polished dies creating a beautiful frosted image of Adolph A. Weinman's classic Liberty that appears to float above a polished field.

Each coin is backed by the United States Government for weight and content, and is made from .999 fine silver. American Eagle Silver Proof Coins are struck at the United States Mint at West Point.
